

Step by Step APP Building in APPSWW CMS:

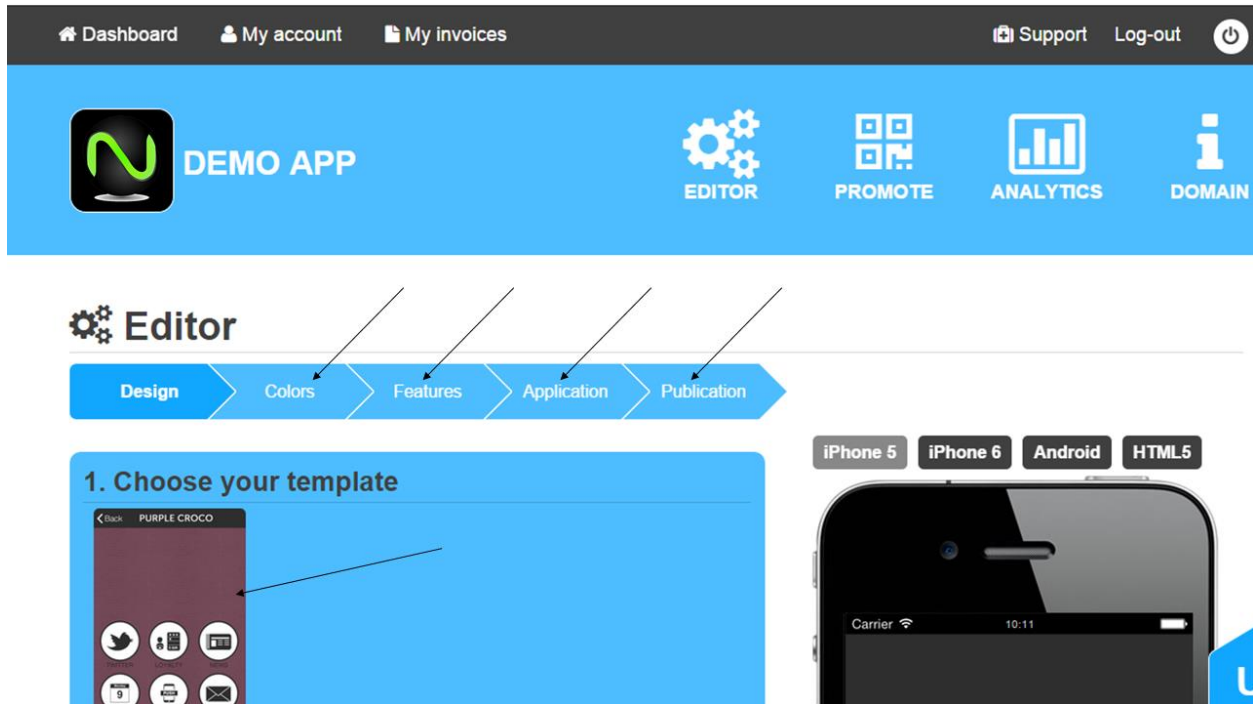

Step 1: Click Choose your template Icon to start building your APP.

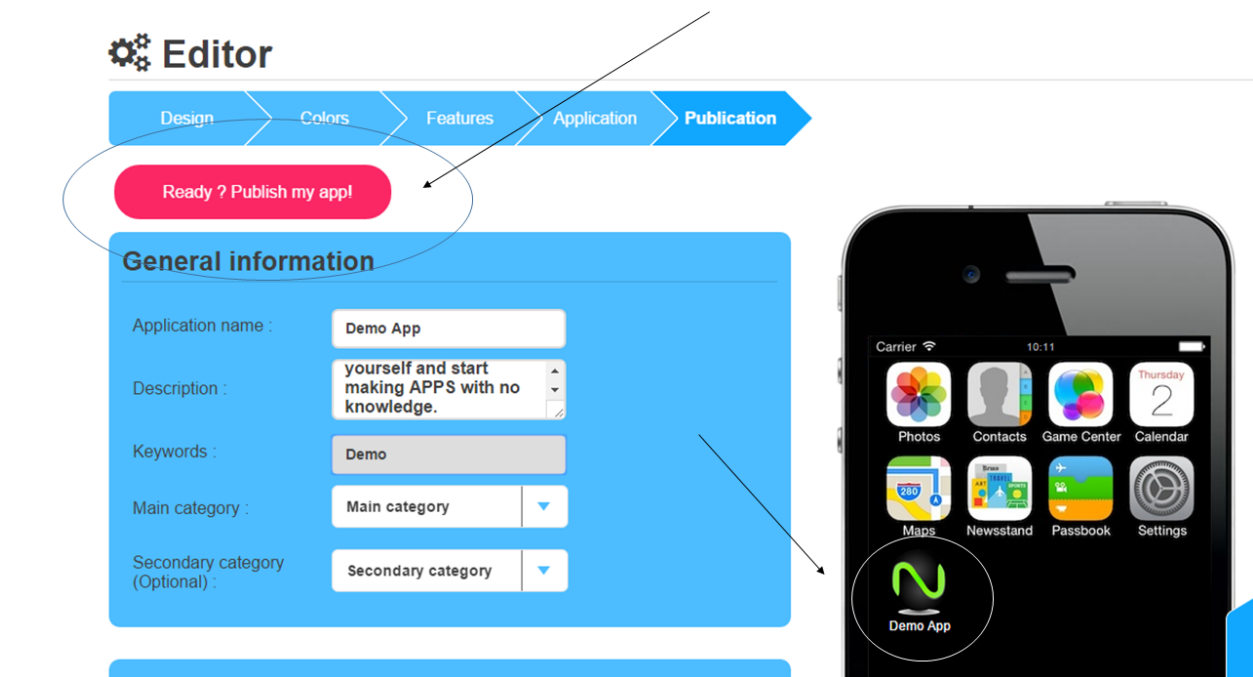

Step 2: Choose your preferred template design.

Step 3: Start building your APP step by step – Colors, Features, Application and continue.....

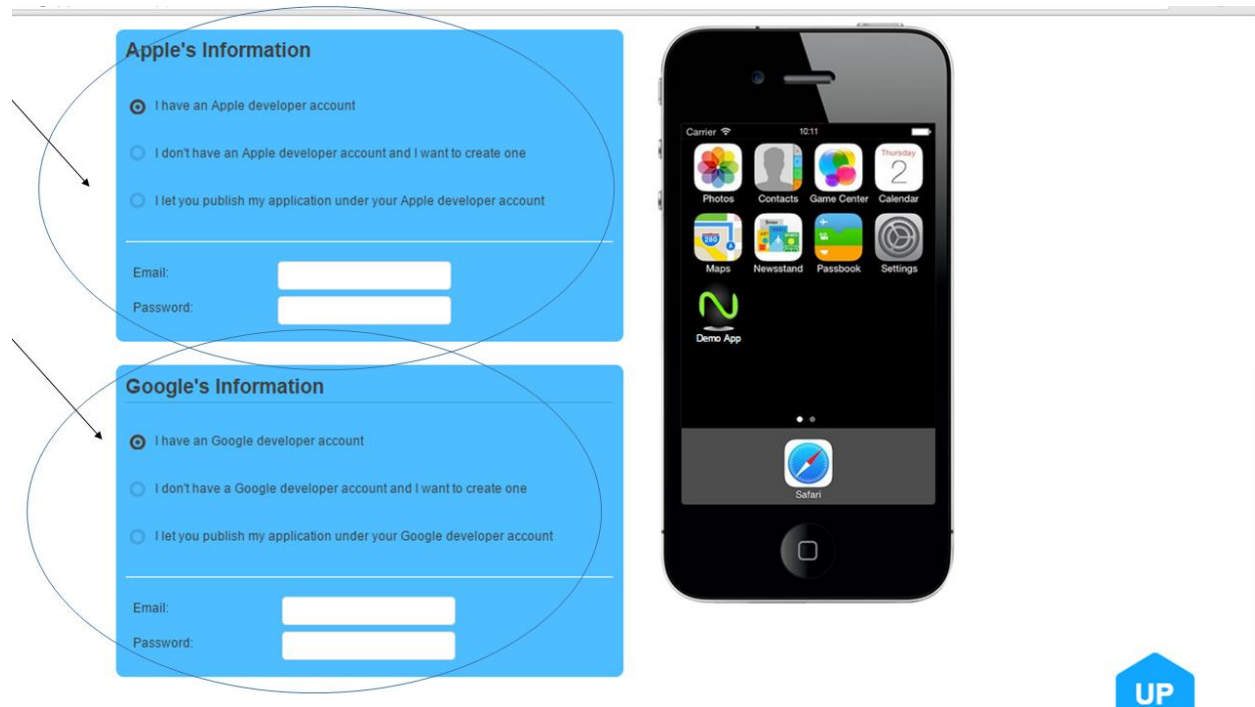

Step 4: Then you will be coming to the last part Publication. Key in the name and nature of your APP along with **Keywords** and **Category**.

Step 5: Before clicking the red button **“Ready, Publish my APP”** Please choose your desired publishing choices. Please check your **APP ICON** in **the phone simulator** located on the right side.

1. You may publish in **YOUR DEVELOPER ACCOUNT**.
2. You may ask us to publish in **our developer account (APPSWW)**.

Please check your APPS using APPSWW PREVIEWER before publishing and make necessary changes if required in real time for FREE.

You may download our APPSWW Previewer in Android or Apple by searching the keyword – **APPSWW**.

Do not forget to read the TIPS section, which helps you to avoid any rejection by Apple or Android while building your APP.

You may email us at – support@appsww.com for any assistance. Only PAID members enquiries are addressed in less than 24 Business Hours.
